Announcement

Invitation to a 6-month research grant in Cardiology Year 2017

Grant location You are requested to attend the Cardiology Dept of the Public Hospital "AAS5-P.O. Santa Maria degli Angeli", Pordenone, Italy. The hospital is about 650 beds. Cardiology is equipped with intensive care unit, interventional cardiology and electrophysiology labs and all out-patient facilities for a referring area of around 400.000 inhabitants. Pordenone is a small town, of about 60.000 people, located in the north-east part of Italy, about 90Km from Venice. "Associazione per la Ricerca in Cardiologia" (ARC) is an Association operating inside the hospital to promote scientific research in the region, and is mainly funded by private companies.

Grant description Applied clinical research in Cardiology open to your contribution. You are requested to submit a research project (suggested of your primary interest), mainly involving cardiac imaging, with special attention to scientific quality and originality. During the grant period you will be only involved in research. Your tasks will mainly be: to coordinate the project; to select candidates based on clinical database queries and off-line recording measurements; to collect data; to perform statistical analysis of collected data; to produce scientific abstracts and papers.

Eligibility/qualifications/experience Young Cardiologists worldwide, preferred ultrasound experience.

Allocation The grant is of € 8.400,00 (total amount) for the six month period. The period can be further extended by agreement.

Accommodation Suggested boarding school (single room about € 40000 per month). Walking distance.

Criteria The selection will be based on the evaluation of curriculum vitae, publications and of the proposed research project.

Selection Committee and evaluation process A Selection Committee will be appointed chaired by dr. G.L. Nicolosi, President of ARC, to evaluate the proposals. The Board of ARC will make the final granting decision, based upon recommendations by the Selection Committee, which will be unquestionable.

Instructions for application The application shall be written in English. A curriculum vitae and a proposal of a project, involving aspects of clinical cardiology and cardiac imaging, are requested.

Submission of application The application must reach the ARC by email or fax. **Deadline 15th March 2017.**
